25X1A9A Present:
TRD.

25X1A9A 1. As requested at the last Joint Training Committee meeting a chart showing the training load of OSO and OPC as compared to training estimates was submitted. Mr. stated that he anticipated training requests of OPC to increase as a result of a statement recently issued by ADPC that poor performances in the field of untrained personnel will be the direct responsibility of the division chief concerned. Mr. also presented for the committee's review a chart of the OPC training slots allocated compared to the number filled. He stated that this chart showed favorably for TRD, but pointed out that for the last two courses there have been two or three holdovers. OPC estimates that they will have 20 applicants per month for the OC. stated that the SOC is presently running concurrent classes and that the OC will start to do so the next course; following that the AOC will do likewise.

25X1A9A 2. A draft memorandum regarding special training projects to go to OSO and OPC division and staff chiefs was submitted for the committee's comments and suggestions. Messrs. approved the memorandum in principle.

10. Charts of the training load of TRD from 1 October 1949 to 1 October 1950 were exhibited. Photostat copies will be included with the TRD monthly progress report for October.

25X1A9A

11. A memorandum from [] ICS/OSO requesting a system be established for debriefing for intelligence information was presented, along with a draft memorandum prepared by Chief, TRD directing the establishment of procedures for making available such information. The Joint Training Committee agreed that TRD's memorandum solved the problem.

12. A list of the special projects undertaken by TRD in the past few months was presented for the information of members of the committee.
